

Akira Mori

A.M Computer Future Team CTO

CTO | Senior Blockchain | Frontend | Backend

Education

Bachelor's degree **Waseda University** 1 Chome-104 Totsukamachi, Shinjuku City, Tokyo 169-8050, Japan / From April 2011 to April 2014

I graduated from this university with excellent grades and am proud of it. My major is computer science and mainly focused in security system.

Work experience

A.M Computer Future team CTO **A.M. co Team** San Carlos, California(CA), 94070 / Since July 2021

I am working as Developing manager(CTO) and **Blockchain** developer. And I am located in US.

I developed some projects (NFT & Defi). such as
<https://hectordao.com/> (This is just a fork of olympusdao.finance)
<https://lumos.finance/> (This has real own bridge & factory, so real one)
<https://citizen.citydao.io/>
<https://calendar.org/>
<https://hyperxft.web.app/>
<http://flowfields.io/>

I have 3+ years **DevOps** experience and now I am working as a CTO of my Team. We are small & future-oriented & passionate team and hope to getting bigger.

Blockchain & Frontend Developer **CodeComplete Co., Ltd** Takaban 3-9-11, Meguro-ku, Tokyo, Japan / From April 2017 to June 2021

I am Blockchain Developer such as NFT technologies (on net Ether & Solana & BSC ..) - developing Front-end with React / Vue / Web3 / Next/ether.js/, Token and Smart Contract development (Solidity & Rust).

I have about 5+years experience with blockchain and smart contract.

And I worked with outside clients and many **NFT(mint & marketplace)** sites are builded by us.

I have specialized skill in **NFT, Defi.**

There are last blockchain sites what I managed and developed.

<https://abstractz.io/>
<https://www.bigaussiecrocs.io/>
<https://dinopunks.io/>
<https://repusd.finance/>
<https://9dnft.com/>

...

In these sites, I worked as a dev manager & main developer.

Now Solidity & Rust & React are my favorite languages and I can make anything to be perfect.

<https://www.jumeirah.com/en/>

<https://treatscard.com/>

<https://www.thecontourlounge.me/>

<https://mejuri.com/>

...

I have rich experience in Frontend (React.js, Vue.js, Next.js, Angular, Sass ...) and in backend (Node.js, express.js, Python, Firebase, MongoDB..).

More Skill

BlockChain Site | NFT Minting | NFT marketplace | Metaverse

I like NFT most and I have full experience in NFT.

I have the 100 % confidence to deliver good result with my rich experience.

Blockchain Defi. Pooling, Staking, Farming

Most of my Blockchain working is Smart Contract.

And I have many experiences of **Ethereum, Solana, BSC, Polkadot...** Blockchain.

I am very familiar with Solidity & Rust & Typescript & React.js & Web3...

Every kinds of new Blockchain idea is open to me, I think.

Frontend & Backend

I am a Frontend & backend developer and have senior Frontend developer certification.

I can make any website or server perfectly.

My Ability

Such an experience makes me confident and ambitious.

With my wealth of experience and passion, I can deliver best results.

- * **Lead** Dev team or make right way to solve any problem.
- * **High** Team work spirited and I am work at any time zone.
- * **Good** Communication and Good relationship.
- * **Good** Student for everything, I'd love to learn more and more.
- * **Best** result with high code style, bug fixing and testing.
- * **Future** oriented ideas.
